PHONE: 724-773-6705 • FAX: 724-773-6711

Dear Beaver Borough  
Municipal Authority customer,

February 1, 2022

The Beaver Borough Municipal Authority (BBMA) has recently made improvements to the aging water and sewer facilities with plans for continued future improvements. The following are a few recently completed and planned projects:

- In July 2022, disinfection of the drinking water was changed from gaseous chlorine to liquid chlorine.
- A new emergency generator was installed at the water treatment plant.
- Plans are under development to replace the sewage debris and grit removal systems in order to more efficiently pre-treat the sewage. Additionally, plans are also under development to update the sewage treatment plant electrical controls and aeration system.
- A 10" diameter water line that services the Beaver high school/middle school campus is planned to be either replaced or lined in the summer of 2022.
- Continued maintenance and replacement of water lines.

The above projects were/are designed using progressive technology along with environmentally sensitive considerations.

The BBMA is a non-profit independent government unit created for the operation of the water and sewer systems. In order to continue to replace and upgrade the aging infrastructure and facilities, **the BBMA recently approved an increase of the water rates by 8 % (from \$2.89 to \$3.12 per 1000 gallons) and sewage rates by 12 % (from \$5.11 to \$5.72 per 1000 gallons).** The base rate for water and sewage will remain at \$9.00 per month. The rate increase will take effect beginning in January 2022 and will be reflected on invoices issued in early February. Even with the increase, the BBMA rates remain one of the lowest in Beaver County as well as in the greater Pittsburgh area!

Please contact the BBMA at 724-773-6700 with any questions. Additionally, please visit the BBMA website at [www.beaverboroughwater.us](http://www.beaverboroughwater.us) for additional information.

**Thank you!**
